1969 PONTIAC GTO JUDGE — LEAD PRODUCTION CAR DECLARATION

Framingham Plant Lead Unit | DON 00017 Corporate Pilot Batch | RPO 554

VIN **242379G125205** (Framingham plant) is the earliest documented production 1969 GTO Judge with a complete, unbroken chain of original factory documents (PHS invoice, broadcast/build sheet, and cowl tag). It is the lead car of the initial corporate pilot rollout (DON 00017) of the new "The Judge" option across multiple GM assembly plants.

Key Primary-Source Evidence:

- **DON 00017** — Corporate pilot batch number used for coordinated multi-plant launch of RPO 554
- **Earliest cowl date** in batch (01B) and lowest Body Sequence number among documented Framingham cars in the pilot group
- **Trim tag FN 56607** (Parchment interior TR 257) matches PHS invoice exactly
- **Corporate allocation code 29-991** (Zone 29 — primary distribution zone for initial controlled rollout)
- **TH400 automatic transmission** confirmed on PHS invoice and broadcast sheet
- Validated by independent experts: Jim Mattison (PHS), Tom Glatch, Baron Von Zeppelin (build sheet analysis)

#	Plant	VIN	DON	Cowl Date	Body Seq	Allocation	Trans	Interior Color	Key References
1 (Lead)	Framingham (G)	242379G125205	00017	01B	ZGA 453185	29-991	TH400	Parchment (TR 257)	PHS + Cowl + Broadcast Sheet
